

Food complaints

Crawley Borough Council

No matter how good a manufacturer or supplier of food is, there will be occasions when

Chocolate/Confectionery

Bloom: Chocolate may develop a light coloured bloom if stored at too high a temperature. It is not mould but is due to fat separation. It is not harmful.

- No public health risk
- Action: Contact retailer/manufacture

Crystals: Large crystals may form in confectionery and may be mistaken for glass. The crystal will dissolve in warm water.

-
